Profile

I'm Keshav — a builder who loves connecting the dots between complex backend logic and beautiful, intuitive user interfaces. I thrive on creating digital experiences that are as powerful on the inside as they are elegant on the outside. I create end-to-end products—from robust web applications to versatile mobile and desktop solutions. My focus is on performance, scalability, and building seamless user experiences across all platforms to deliver highly reliable and structured software.

Education

08/2024 – present	Bachelor of Technology
Deon, Bathinda, India	<i>BFCET</i> 
2022 – 2024	PCM
Bathinda, India	<i>Rose marry convent school</i>
